

SHEET INFORMATION – FLAGPOLE REPAIR

Here's the **information** needed to **repair your flagpole**, whether it's from *Tecnima VL* or not:

- **Complete address**
(number, street, city, postal code);
- **Approximative flagpole height;**
- Type of flagpole **material**
(aluminum, steel);
- **Problem** on the flagpole;
- **Accessibility** of the flagpole – on the ground, on a building
(wall or roof for example, how far is it from the truck access, etc.);
- Is your flagpole on a hinge **system or fixed to the ground**
(we will work at height or on the ground);
- Possible repair **schedule**;
- Is a city **permit** required for street/sidewalk closures, etc.?
- Send us the following **pictures**:
 - Flagpole **top**;
 - Flagpole **base**;
 - **Access door** to the outside and inside of the flagpole;
 - The **entire flagpole** (to clearly see the entire flagpole and its surroundings).

Please note that *on average, it takes 3 hours* to complete the repair of a flagpole. Also, expect a fee for transportation. This will be reviewed based on the information provided and the technical and environmental challenges on site.

The work includes:

- Install the truck and equipment;
- Remove the entire flagpole head;
- Remove the hardware at ground level and reinstall everything;
- Install the new parts and ensure they are working properly;
- Dispose of waste.
